Dear Staff,

Starting Monday, September 30, 2013, we will begin to implement a school wide data collection system, so we can monitor the progress of our students. The data will also be used to make instructional and curricula adjustments to improve student outcomes. The following table below describes the initial data that we will be collecting for each student. We will review this system in more detail at our PD on Monday at 2:25p.m.in the school library. Please come prepared with your questions and input.

- Student assessment data sheet by class can be downloaded at the following web site: [http://ps212techportal.weebly.com/assessments-data-files.html](http://ps212techportal.weebly.com/assessments-data-files.html) on Monday, 9/30.
